## DeltaStud

The most innovative framing systems of the 21st century.

DeltaStud delivers proven structural performance.

## Innovative.framing system

This patented & engineered lightweight steel framing system's steel shape is available in the geometric envelope of conventional light gauge steel "C" studs, but weighs 15 – 40% less. Its open-web design provides built-in paths for installing conduit, plumbing & even small HVAC duct.

## Advantage.DeltaStud

- Precision roll formed flanges & stamped rim of each opening provides greater stiffness
- Stamped openings make it easy to route all services
- Higher strength-to-mass ratio than conventional studs
- Flexibility of sizes & configurations
- Reduced Sound Transmission
- Unmatched thermal performance
- Increased combined axial and lateral loadbearing capacities by 10 – 20% compared to conventional studs due to open web design
- Build green with 100% recyclable steel

The most innovative framing system
