

## About Us

Imperial Building Products (IBP) is a Canadian manufacturer of lightweight steel framing and structural solutions, supporting builders, architects and engineers with high-quality systems designed for performance, efficiency, and safety on today's job sites.

Now a part of CGC, we offer a reliable portfolio of industry-leading products with a focus on:

- Steel stud, track, framing and structural building systems.
- Composite floor solutions for mid-rise construction.
- Precision-manufactured components ready for installation.

## Let's talk UltraBond®

Whether you're optimizing for cost or engineering for long spans, our experts are here to help with project fit, technical guidance, and design support.

- Request load tables and design support.
- Explore spans, assemblies, and cost-saving strategies.
- Find out if UltraBond® is the right fit for your next project.

# UltraBond®

## COMPOSITE FLOOR SYSTEM

## The UltraBond® Advantage

UltraBond® is a high-performance composite floor system designed to deliver long spans, faster construction, and greater design flexibility, while reducing overall building weight, labour, and material costs.

Deck sections can be craned in place in bundles or as pre-fabricated sections ready for installation. Sections are capable of clear spans up to 11 meters and provide a safe working platform during construction.

## A Smarter Composite Floor System

UltraBond® delivers long spans and fast-track construction while creating a reliable working surface that supports jobsite safety from install to pour.

### Long Spans & Lighter Structures

Spans up to 11m, lighter loads, and uncompromised strength for smarter builds.

### Faster Construction

Pre-labelled, custom-cut components with only seven core elements, helping crews work more efficiently on site.

### Design Flexibility & Integration

Architectural design freedom & compatibility with all building systems.

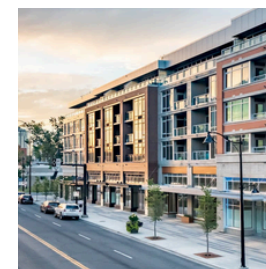

### Fire Safety & Code Compliance

2 hour fire-rated floor assembly, helping projects meet safety requirements.

## Where UltraBond® Performs Best

UltraBond® is ideal for mid-rise and commercial projects where long spans, efficient construction, and reliable performance are critical to keeping schedules and costs on track.

### Multi-Residential & Mixed-Use

Condos, rental buildings, student housing, and mixed-use developments.

### Healthcare, Education & Hospitality

Schools, dormitories, seniors' residences, and hotels.

### Commercial & Light Industrial

Offices, retail, and light-industrial buildings.
