MegaJoist

MegaJoist

The most innovative framing systems of the 21st century.

Simplify construction with this patented & engineered lightweight steel framing system.

Innovative.framing system

This lightweight steel framing system's steel shape is available in the geometric envelope of conventional light gauge steel "C" studs & joists, but weighs 15 – 40% less. Its open-web design provides built-in paths for installing conduit, plumbing & even HVAC duct to simplify construction.

Advantage.MegaJoist

- Stamped openings make it easy to route all services
- Flexibility of sizes & configurations
- Custom lengths & knockout alignments
- Reduced Sound Transmission
- Unmatched thermal performance
- Weighs 15 – 40% less than conventional 'c' joist
- Build green with 100% recyclable steel
